DIRECTORS' REPORT

The management is pleased to present their report together with audited Consolidated financial statements of the Group for the year ended March 31, 2022.

Principal activities

The principal activities of the Group is "Ship Charter, Ship Management & Operation, Shipping Lines of Freight & Passengers Transportation".

Performance review

For the year, the Group has recorded a revenue of USD 7.53 million as compared to the previous year revenue of USD 3.71 million. The net income of the Group for the year is USD 1.13 million as compared to the net income of USD 0.16 million for the previous year.

Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID 19)

The outbreak of Coronavirus (Covid 19) pandemic globally and In Middle East is causing significant disturbance and slowdown of economic activity. The Group has considered internal and external information while finalizing various estimates in relation to its financial statement upto the date of approval of the financial statements by the Board of Directors and has not identified any material impact on the carrying value of assets, liabilities or provisions. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The Group is monitoring the situation closely, and shall take actions as appropriate, based on any material changes in the future economic conditions.

Events subsequent to the balance sheet date

There were no major events, which occurred since the year end that materially affect the financial position of the Group.

Auditors

The Group's auditors, TRC PAMCO Middle East Auditing & Accounting, now retire and being eligible, offer themselves for re-appointment.

INDEPENDENT AUDITOR'S REPORT

The Shareholders
Seamec International FZE
United Arab Emirates

Report on the audit of the consolidated financial statements of Seamec International FZE for the year ended March 31, 2022

Opinion

We have audited the accompanying consolidated financial statements of Seamec International FZE, Dubai, UAE and its Subsidiary ("the Group"), which comprises the consolidated statement of financial position as at March 31, 2022, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at March 31, 2022 and group financial performance and group's cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) for Small and Medium Sized Entities.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISA's). Our responsibilities under those standards are further described in the auditors responsibilities for the audit of the financial statements of our report. We are independent of the Group in accordance with the 'International Ethics Board for Accountants' Code of Ethics for Professional Accountants (the "IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other Ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRSs and in compliance with the applicable provisions of Dubai Airport Free Zone Authority (DAFZA), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the management is responsible for assessing the Group's ability to continue as a going concern, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Seamec International FZE

INDEPENDENT AUDITOR'S REPORT

Auditors responsibilities for the audit of the financial statements

Objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA's, we exercise professional judgement and maintain professional skepticism through out the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Seamec International FZE

INDEPENDENT AUDITOR'S REPORT

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

We have obtained all the information and explanations which were necessary for the purpose of our audit and, to the best of our knowledge and belief, no violations of the Implementing Regulations issued there under by the Dubai Airport Free Zone Authority (DAFZA) came to our attention which would have had a material effect on the Group's financial position.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

These consolidated financial statements have been prepared for the year ended March 31, 2022

1. LEGAL STATUS, ACTIVITIES AND MANAGEMENT

1.1 Legal status

Seamec International FZE was registered on 14 March 2010 as a Free Zone Establishment with limited liability under license No. 1884 issued by Dubai Airport Free Zone Authority, Government of Dubai. The registered office of the Establishment is located in the Emirate of Dubai. The Establishment is a wholly owned subsidiary of Seamec Limited (the "Parent Company") registered in Mumbai, India. The ultimate parent Company is Hal Offshore Limited (the Ultimate Parent Company), registered in New Delhi, India.

As per the Memorandum of Association: the issued, subscribed and paid up capital of the Establishment as on March 31, 2022 is AED 3,000,000 (AED Three Million Only) (Equivalent to USD 817,440) divided into 3 shares of AED 1,000,000 each held by Seamac Limited, India.

Subsidiary Company

Seamate Shipping FZC is a free zone Company registered in Emirate of Ajman, United Arab Emirates established on 09/09/2020.

The principal activity of the Company is " Ship Management and operation".

The share capital of the Company is AED 10,000 divided in to 10 shares of AED 1,000 each.

The Company has two shareholders with the following shareholding patten:

Shareholders	Number of shares	AED	USD	Percentage of shares
Seamec International FZE	6	6,000	1,633	60%
Arete Shipping DMCC	4	4,000	1,090	40%
	10	10,000	2,723	100%

During the previous year, Seamec International FZE has invested USD 1,633 in Seamate Shipping FZC, representing 60% share capital of Seamate Shipping FZC.

1.2 Activities

The principal activities of the Group is "Ship Charter, Ship Management & Operation, Shipping Lines of Freight & Passengers Transportation".

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the entities controlled by the Group as mentioned in point 1. Control is achieved where the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards for Small and Medium Sized Entities promulgated by the International Accounting Standards Board (IASB) and interpretations issued by the IFRS Interpretations Committee (IFRS IC).

These consolidated financial statements comprise financial statements of the holding entity and subsidiary on a line-by-line basis by adding together the book values of items like assets, liabilities, income and expenses, after fully eliminating intra-Group balances and intra-Group transactions.

The consolidated financial statements are prepared under the historical cost convention.

2.2 Adoption of new and revised international financial reporting standards (IFRS)

(a) New and revised IFRSs applied with no material effect on the financial statements

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the International Accounting Standards Board ('IASB') that are mandatory for the current reporting period. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. The following Accounting Standards and Interpretations are most relevant to the Group:

- i Definition of Material (Amendments to IAS 1 and IAS 8);
- ii Interest Rate Benchmark Reform - (Amendments to IFRS 9, IAS 39 and IFRS 7);
- iii Amendments to References to the Conceptual Framework (Various Standards);
- iv COVID-19 Rent Related Concessions (Amendments to IFRS 16);

These amendments do not have a significant impact on these financial statements of the Group.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

2.3 Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities, revenues, expenses, disclosure of contingent liabilities and the resultant provisions and fair values. Such estimates are necessarily based on assumptions about several factors and actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation, uncertainty, and critical judgements in applying accounting policies (that have the most significant effect on the amount recognized in the financial statements) are discussed in remaining notes.

Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID 19)

The outbreak of Coronavirus (Covid 19) pandemic globally and in Middle East is causing significant disturbance and slowdown of economic activity. The Group has considered internal and external information while finalizing various estimates in relation to its financial statement upto the date of approval of the financial statements by the Board of Directors and has not identified any material impact on the carrying value of assets, liabilities or provisions. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The Group is monitoring the situation closely, and shall take actions as appropriate, based on any material changes in the future economic conditions.

2.4 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable, excluding discounts, rebates, and sales taxes or duty. Revenue is recognized. Revenue is recognized when the performance obligations are met as per the requirement of IFRS 15. The following specific recognition criteria must also be met before revenue is recognised:

Charter hire revenue

Charter hire revenues represent time charters and are recorded over the term of the charter as the services are provided. Revenue in progress at year end is calculated using the daily charter hire rate multiplied by the number of voyage days on-hire through year end. Respective vessel operating expenses are accounted for on an accrual basis.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

Interest income

Interest income is recognised using the effective interest method.

2.5 Property and equipment

Property and equipment is stated at cost less accumulated depreciation and impairment losses, if any.

Depreciation is calculated on a straight line basis over the estimated useful lives of the assets.

Asset	Useful life of asset
Vessel	25 years
Vehicle	4 years
Furniture and fixtures	4 years
Computer and office equipment	4 years
Dry dock expenditure	5 Years

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount, being the higher of their fair value less costs to sell and their value in use.

Expenditure incurred to replace a component of an item of property and equipment that is accounted for separately is capitalized and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalized only when it increases future economic benefits of the related item of property and equipment. All other expenditure is recognized in the statement of comprehensive income as the expense is incurred.

An item of property and equipment is derecognized upon disposal or when no future benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the statement of comprehensive income in the period the asset is derecognized.

The asset's residual values, useful lives and methods of depreciation are reviewed at each financial period end, and adjusted prospectively, if appropriate.

The cost of docking the vessel for maintenance and overhaul is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Group, and its cost can be measured reliably.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

Costs incurred for preparation of vessel to go for Dry Docking is recognised as Capital Work In Progress and is subsequently capitalised when vessel goes for Dry Dock.

2.6 Investment in subsidiary

Investment where the Group holds more than 50% of the share capital of the investee and/or has the power to govern the financial and operating policies of the investee Company, so as to obtain benefits from its activities, are treated as subsidiary companies.

The Group's investment in subsidiary are accounted for using the equity method. Under the equity method, the investment in the subsidiary is initially recognised at cost are adjusted by incorporating the financial statement of the subsidiary Company as per the IFRS.

2.7 Accounts receivable

Accounts receivable are stated at original invoice amount less a provision for any uncollectible amounts. An estimate credit loss calculated using the simplified approach as per the requirements of IFRS 9. Bad debts are written off when there is no possibility of recovery.

2.8 Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, bank balances, and short-term deposits with an original maturity of three months or less.

2.9 Accounts payable and accruals

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

2.10 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income net of any reimbursement.

2.11 Employees' end of service benefits

The Group provides end of service benefits to its expatriate employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

2.12 Leases

Right of use assets

The Group recognises Right of use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right of use assets is depreciated on a straight-line basis over the shorter of its useful life and the lease term.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

2.13 Foreign currencies

Transactions in foreign currencies are initially recorded by the Group at the currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange at the reporting date. All differences arising on settlement or translation of monetary items are taken to the statement of comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

The gain or loss arising on retranslation of non-monetary items is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in other comprehensive income or profit or loss is also recognized in other comprehensive income or profit or loss, respectively).

2.14 Financial assets

Initial recognition and subsequent measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- a). Financial assets at amortized cost (debt instruments);
- b). Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments);
- c). Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments) ;and
- d). Financial assets at fair value through profit or loss.

(a) Financial assets at fair value through OCI (debt instruments)

The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

- a). The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- b). The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding .

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the statement of profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

The Group's debt instruments at fair value through OCI includes investments in quoted debt instruments included under other non-current financial assets.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

(b) Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

(c) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss.

(d) Financial assets at amortized cost (debt instruments)

The Group measures financial assets at amortized cost if both of the following conditions are met:

- a). The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- b). The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

(e) Derecognition of financial assets

A financial asset is primarily derecognized when:

- I).The rights to receive cash flows from the asset have expired; Or
- II).The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

(f) Impairment of financial assets

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

For debt instruments at fair value through OCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the internal credit rating of the debt instrument.

2.15 Financial liabilities

(a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

(b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Group has not designated any financial liability as at fair value through profit or loss.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

Loans and borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

(c) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

2.16 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.17 Value added tax

Value Added Tax (VAT) asset/ liability is recognized in the books on the basis of regulations defined by Federal Tax Authority (FTA).

Expenses and assets are recognized net of the amount of value added tax, except:

- i. When the value added tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the value added tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable;
- ii. When receivables and payables are stated with the amount of value added tax included.

The net amount of value added tax recoverable from, or payable to, the taxation authority is included as part of other receivables or other payables in the financial statements.

Significant accounting policies to the consolidated financial statements for the year ended March 31, 2022

2.18 Share capital

Proceeds from issuance of ordinary shares are recognized as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.19 Contingencies

A contingent liability is:

(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or

(b) a present obligation that arises from past events but is not recognized because:

(i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

(ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognized on the balance sheet of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

Notes to the consolidated financial statements for the year ended March 31, 2022

Other advances		-	3,340
		95,705	105,543

Notes to the consolidated financial statements for the year ended March 31, 2022

- 7.1 Deposits includes rent security and DAFZA commercial deposits.
 7.2 Prepayments relates to rent, insurance and loan processing fee.
 7.3 Accrued interest is interest receivable on fixed deposit kept with bank.

(Figures in USD)

	As on Mar 31, 2022	As on Mar 31, 2021
8. ACCOUNTS RECEIVABLE		
Trade receivable	860,820	605,377
Less: Provision for Doubtful debts	(597,189)	(298,595)
	263,631	306,782

Ageing of trade receivables as on March 31, 2022 is as follows:-

Less than 180 days	263,631	272,446
More than 180 days	597,189	-
	860,820	272,446

The charter party agreement entered with White Hope Quay S.A. was terminated on December 17, 2020 and the charter deposit of USD 1,175,000 received from the charterer is adjusted with the outstanding receivable. The vessel, MV Good Hope was handed over to the Group. The Group has to receive USD 597,189 net off charter deposit from White Hope Quay S.A. and considering the recoverability, provision of USD 597,189 (P.Y. USD 298,595) is made for the due.

9. CASH AND BANK BALANCES

Cash in hand	176	88
Cash at bank	284,470	1,041,107
Term deposits (term deposits over 3 months)	9,241,313	9,178,994
	9,525,959	10,220,189
Less : Term deposits (maturity over 3 months)	(9,241,313)	(9,178,994)
Cash and cash equivalents	284,646	1,041,195

Term deposits of USD 9,241,313 (2021 : USD 9,178,994) are held with commercial banks in United Arab Emirates. These are denominated in USD with an effective interest rate of 0.50% to 1.25% (2021 : 2%). The term deposits are pledged against the overdraft facilities obtained from the banks.

Notes to the consolidated financial statements for the year ended March 31, 2022

	<i>(Figures in USD)</i>	
	As on Mar 31, 2022	As on Mar 31, 2021
10. TERM LOANS		
Term loans - within one year	1,863,659	1,863,659
Term loans - more than one year	2,956,744	4,820,402
	4,820,402	6,684,061

Term loan amounting to USD 7.20 million was obtained from Bank of Baroda, Sharjah, UAE in July 2018 and is repayable over the period of 84 months and the last repayment is due till July 2025. Term loan is denominated in USD with an effective interest rate of 400 BPS above 6 months LIBOR with minimum 5.75% p.a. (P.Y. 6.35%) and 2.00% extra on overdue instalments/interest is any.

Another term loan amounting to USD 3.062 million was obtained from Bank of Baroda, Sharjah, UAE in March 2020 and is repayable over the period of 44 months. Term loan is denominated in USD with an effective interest rate of 400 BPS above 6 months LIBOR with minimum of 5.75% p.a. (P.Y. 6.35%) and 2% extra on overdue instalments/ interest if any.

Term loans are secured by the following:

- a. Term loan agreement;
- b. Letter of instalment with acceleration clause;
- c. Mortgage of vessels;
- d. Assignment of freight earnings/charter hire revenue of vessel;
- e. Pledge over present and future stocks of the Group and assignment of present and future receivable of the Group;
- f. Undated security cheque of USD 10.362 Million and USD 3.062 Million .
- g. Assignment of insurance policy in bank's favour;
- h. Corporate guarantee of M/s. Seamec India Limited.

11. OTHER PAYABLE

Charterer's deposit	5,091,250	5,091,250
---------------------	-----------	-----------

Charterer's deposit is a interest free security deposit received from Charterer as per terms and conditions defined in the Charterers' Deposit Agreement. The deposit shall be repaid falling due on the final repayment date. The Group shall be entitled to require the deposit is set off against the purchase price payable by the Charterer in respect of their purchase of the vessel under the options and purchase obligations as agreed between the Group and the Charterer.

Notes to the consolidated financial statements for the year ended March 31, 2022

The charter party agreement entered with White Hope Quay S.A. was terminated on December 17, 2020 and the charter deposit of USD 1,175,000 received from the charterer is adjusted with the outstanding receivable. The vessel, MV Good Hope was handed over to the Group.

Charterer's deposit includes security deposit of USD 480,000 against the charter agreement with Fast freight Pte Ltd for MV Good Hope and USD 3,061,250 against the Charter Agreement with United Marine Inc. for Vessel Ocean Favour.

	<i>(Figures in USD)</i>

	555,925	459,671

Notes to the consolidated financial statements for the year ended March 31, 2022

19. FINANCIAL INSTRUMENTS

The management believes that the fair value of the financial assets and liabilities are not significantly different from their carrying amounts at reporting date.

The management conducts and operates the business in a prudent manner, taking into account the significant risks to which the business is or could be exposed. The primary risks to which the business is exposed, comprise credit risks, liquidity risks and market risks (including currency risks, cash flow interest rate risks and fair value interest rate risks).

a. Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that is not the Group's functional currency. The Group does not have any significant currency risk as the Group's transactions are mainly in United State Dollars (USD) and United Arab Emirates Dirhams (AED) that is pegged to AED.

b. Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Group's bank accounts are placed with high credit quality financial institutions. The Group manages credit risk with respect to receivables from customers by monitoring in accordance with defined policies and procedures. Credit risk is limited to the carrying value of financial assets in the balance sheet.

The maximum exposure to credit risk at the end of the reporting year was:

	<i>(Figures in USD)</i>	
	As on Mar 31, 2022	As on Mar 31, 2021
Inventory	98,349	384,217
Investments	-	-
Deposits, prepayments and other receivable	95,705	105,543
Accounts receivable	263,631	306,782
Cash and bank balances	9,525,959	10,220,189
	<u>9,983,644</u>	<u>11,016,731</u>

c. Interest rate risk

Interest rate risk is the risk that the value of financial instrument will fluctuate due to change in market interest rates. The Group is not exposed to any significant interest rate risk as the interest rates are fixed on the borrowings.

Notes to the consolidated financial statements for the year ended March 31, 2022

d. **Liquidity risk**

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from inability to sell a financial asset quickly at close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available to meet any future commitments.

The following are the contractual maturities of financial liabilities, including estimated interest payments:

	<i>(Figures in USD)</i>			
	Less than one year	1 to 5 years	More than 5 years	Total
As on March 31, 2022				
Term loans	1,863,659	2,956,744	-	4,820,402
Other payable	-	5,091,250	-	5,091,250
Bank borrowings - short term	3,072,307	-	-	3,072,307
Accounts and other payable	889,682	-	-	889,682
	5,825,648	8,047,994	-	13,873,641

	<i>(Figures in USD)</i>			
	Less than one year	1 to 5 years	More than 5 years	Total
As on March 31, 2021				
Term loans	1,863,659	4,820,402	-	6,684,061

Bank borrowings - short term	5,478,596	-	-	5,478,596
Accounts and other payable	813,651	-	-	813,651
	8,155,906	9,911,652	-	18,067,559

e. **Capital risk management**

The primary objective of the Group's capital management is to ensure that it is able maintain a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder's value.

Notes to the consolidated financial statements for the year ended March 31, 2022

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year ended March 31, 2022 and March 31, 2021 respectively.

20. SIGNIFICANT EVENTS OCCURRING AFTER THE REPORTING DATE

There are no significant events occurring after the reporting date, which require disclosure in the financial statements.

21. RELATED PARTY TRANSACTIONS

The Group in the normal course of business enters into transactions with other business enterprises that fall within the definition of Related Party contained in the International Accounting Standard. The Group believes that the terms of these transactions are not significantly different from those that could have been obtained from third parties.

List of related parties and the nature of relationship is given below:

Name of related party	Nature of relationship
Seamec Limited, India	Parent Company
Arete Shipping DMCC	Shareholder of Subsidiary

Transactions with the related parties during the year are as follows:

Transactions	Name of the related party	2022 (USD)	2021 (USD)
Service charge		-	-
Other expenses		17,714	17,842
Finance guarantee fee	Seamec Limited, India		33,615

Balances due from/(due to) related parties at the year end is below:

Name of the related party		<i>(Figures in USD)</i>	
		As on Mar 31, 2022	As on Mar 31, 2021

Notes to the consolidated financial statements for the year ended March 31, 2022

22. FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets and financial liabilities.

The fair value of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The fair values of financial instruments are not materially different from their carrying values.

The table below presents assets and liabilities measured and carried at fair value and classified by quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).

Particulars	2022 (USD)		2021 (USD)	
	Level 1	Total	Level 1	Total
Investment in fund	-	-	(0)	(0)

- 23.** Balances with accounts receivable and accounts payable are subject to confirmation and reconciliation. Adjustments in this regard will be done as and when required which in view of the management is not material.

24. CONTINGENT LIABILITIES

As represented by the management, except for the ongoing commitments in the normal course of business against which no loss is expected, there are no other known contingent liabilities existing at the reporting date.

25. KEY SOURCES OF ESTIMATION UNCERTAINTY

a. Useful lives of property and equipment

The Group's management determines the estimated useful lives of its property and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Notes to the consolidated financial statements for the year ended March 31, 2022

b. Fair value of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, their fair value is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

c. Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in arm's length transactions of similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

26. GENERAL

26.1 Figures are converted from USD at the conversion factor of 1 USD = 3.67 AED.

26.2 Previous year figures are regrouped and/ (or) reclassified, wherever necessary to conform to current year financials.
